

## Cable HT aluminium A-series

The A-series high voltage electric fencing insulated cable is used as a lead out cable from your energizer to the fence and for all other insulated high voltage transmissions. It is used with a range of aluminium alloy wires and galvanised earth spikes.

### Features:

- Ideal cable when aluminium wire is used
- Low electrical resistance reducing power and voltage drops over large distances

### Specifications:

Material: UV stabilised double insulated cable  
Aluminium/alloy inner conductor
